Academic Programmes

TTVC offers a wide range of technical and vocational education programmes in key skills areas including Computing, Engineering, Business, Agriculture, Hospitality, Fashion Design, and Automotive studies.

Each programme is built around practical learning, enterprise readiness, and job market relevance.

Programme Levels

Certificate programmes provide foundation skills and early employment readiness.

Craft programmes focus on specialised technical skills and supervised workplace practice.

Diploma programmes provide deeper academic and practical knowledge for advanced technical roles and enterprise development.

Departments and Focus Areas

Computing and Informatics covers digital literacy, ICT support, and software applications.

Electrical and Electronics supports installation, maintenance, and renewable energy systems.

Business Studies supports entrepreneurship, accounting, procurement, and management skills.

Agriculture, Hospitality, Fashion Design, and Automotive Engineering prepare learners for practical, skilled roles in local and national industries.

Apply with Confidence

Review the detailed course information before applying and contact the college for current intake and fee guidance.

TTVC programmes are designed to help students build practical capability, confidence, and career readiness.
