Fee Information

Fees and levies are reviewed regularly and may change according to institutional costs and programme requirements.

It is important that students confirm the current fee structure with the admissions or finance office before payment.

Payment and Planning

Students should keep all fee documents, payment slips, and admission acknowledgement records safely for reference.

Planning early helps learners and guardians understand the cost of study and prepare appropriately.

Funding and Support

Government funding, bursaries, and related support options may be available depending on eligibility and current policy.

Students are encouraged to ask admissions about available support channels before registration.
